

PIPETTING AID

PIPETTING AID SWIFT-SP

The battery powered pipetting aid for cordless work with pipettes in the range of 1 - 100 ml.

Different operation modes allow the transfer of liquids of various viscosities.

With an extra valve behind the hydrophobic filter, SWIFT-SP has an outstanding safety feature with regard to user protection and avoidance of cross contamination.

Characteristic Features:

- Utmost precision
- Suitable for graduated or one-mark pipettes, glass or plastic
- Cordless operation up to 8 hours
- High or low work speed
- Sensitive valves for accurate pipetting of low volumes
- Dispensing can be carried out by gravity (GRAV) or supported by pump (BLOW) which empties the pipette with blow out
- Fatigue free operation due to ergonomic design and light weight
- Low battery indicator and overcharging protection

Cat. No.	Model
7.1.	SWIFT-SP complete with power supply 220V / 50 Hz
7.2.	SWIFT-SP complete with power supply 120V / 60 Hz
7.3.	SWIFT-SP complete with power supply 230V / 60 Hz
7.4.	SWIFT-SP complete with power supply 240V / 50 Hz
7.6.	Holder for SWIFT-SP
7.7.	Pipette adapter, autoclavable
7.8.	PTFE-Filter 0.2 mm, autoclavable
7.9.	PTFE – Filter 0.45 mm, autoclavable
