

V3-SERIES PIPETTES

PIPETTES-V

Continuously adjustable pipette without tip ejector.

Excellent accuracy and precision. Individual quality control certificate with each unit.

Seven Pipette-V models permit handling of any volume even fractional, between 0,5 to 5000 μ l.

Characteristic Features:

- Ergonomic design. Light weight for improved comfort
- Magnified easy-to-read digital indicator positioned to be visible during pipetting
- Adjustment wheel recessed to prevent accidental volume change
- Slim shape for easy operation with long and narrow tubes
- Grooved handle for reduced head transfer
- Maintenance free
- The pipette and its components are made of stainless steel and can be used safely with acid and alkaline solutions
- All parts that come in contact with the test solution are autoclavable

Cat. No.	Model	Volume Range μ l	Accuracy error %	Precision error %
1.3.0.	V10	0,5 - 10	5 - 0,4	4 - 0,4
1.3.1.	V20	2 - 20	4 - 0,8	3 - 0,4
1.3.1.0.	V50	5 - 50	4 - 0,8	2 - 0,4
1.3.1.1.	V100	10 - 100	1,6 - 0,8	0,8 - 0,3
1.3.2.	V200	20 - 200	1,6 - 0,6	0,5 - 0,3
1.3.3.	V1000	100 - 1000	0,7 - 0,6	0,5 - 0,25
1.3.4.	V5000	1000 - 5000	0,6 - 0,5	0,3 - 0,2
